

What's New in TouchBistro 7.2.3

TouchBistro 7.2.3 now integrates with the Square Register app. We've also added an ability to reload data to the Shogo integration.

You now also adjust your guest checks to include the bill number.

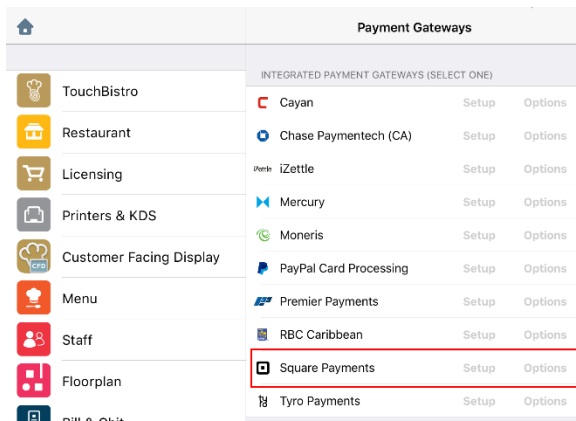

Consult these release notes for full details on these changes along with other significant improvements to the cloud reporting site.

Need More Help?

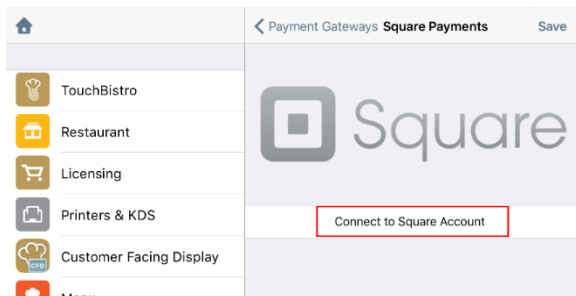

Email support@touchbistro.com if you are experiencing any issues with this update.

Square Integration

TouchBistro now supports the Square Register app as a payment integration.

You can enable Square under **Admin | Admin Settings | Payment Gateways**.

Simply tap Setup and then the connect option. You will need to enter your Square email address and password.

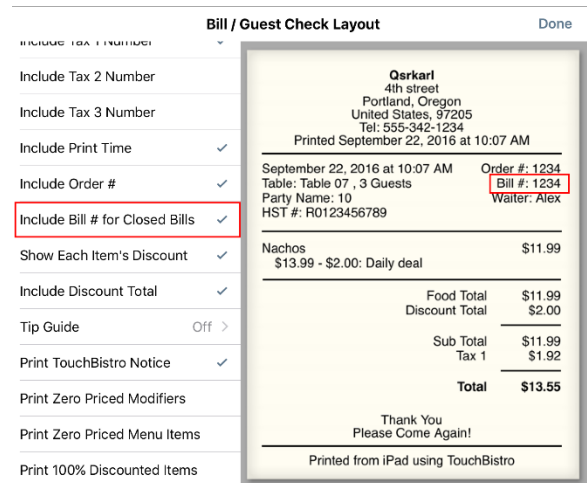

The Square Register app also needs to be on the same iPad as TouchBistro.

Availability

The integration is available to both American and Canadian customers. The following Square devices are available:

Device	Country
Square Reader	USA, Canada
Square Stand	USA, Canada
Square Contactless + Chip Reader	USA

Bill Number

Under **Admin | Admin Settings | Bill & Chit** you can now include a bill number on the guest check.

It can be useful to cross reference with the following reports that reference a bill number:

1. Detailed Takeout Report
2. Void Report
3. Detailed Discount Report
4. Detailed Account Report
5. Detailed Sales CSV

CSV Done

* Sales numbers are rounded to the nearest cent and may vary slightly from report to report.

If you need to double check a particular bill number referenced in one of the above reports, note the date/time and the bill number.

Access TouchBistro's **Bill / Guest Check History**, set the time/date wheels for a date range that brackets the bill date/time.

After you tap **Refresh**, locate the **Bill #** in the **Search Results** area.

Shogo Upload Option

If you're using the Shogo integration, you can now re-upload data for any given day.

Month	Day	Year
April	18	2013
May	20	2014
June	21	2015
July	22	2016
August	23	2017
September	24	2018
October	25	2019

Tap **Reupload Date** and use the date/time wheel to set the day you wish to upload. Tap **Upload** to initiate the upload.
