

## What's New in TouchBistro 9.3.5

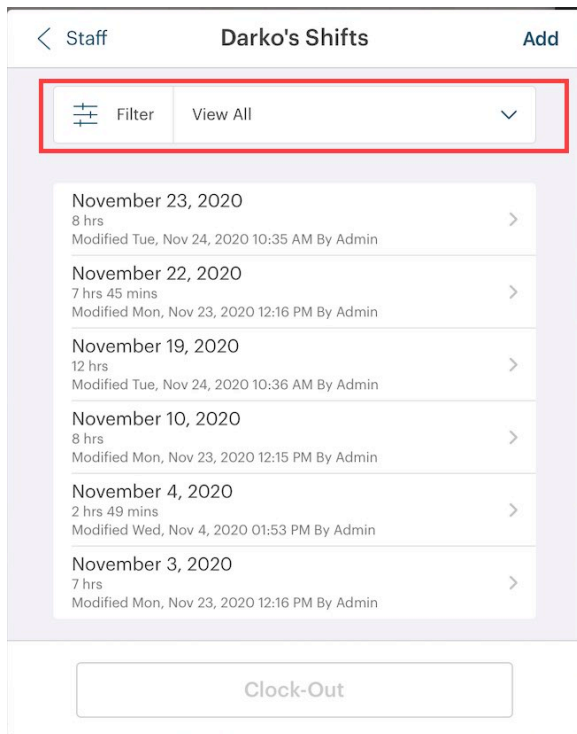

We've added the ability to filter a staff member's list of shifts on the **Staff List** screen. If your iPad(s) have been updated to iPadOS 14, see these release notes for a Wi-Fi setting you must disable if you are using payment integrations or certain companion apps.

Consult these releases notes for further details about these changes and more.

## Filtering Shifts on the Staff List Screen

If you view a staff member's list of completed shifts from the **Staff List** screen (**Options | Staff List** or **Admin | Admin Settings | Staff | List of Staff**), you can now filter the list of displayed shifts.

If you tap the **Filter** drop-down box, you have four options for filtering the list of shifts:

## iPadOS 14 Users

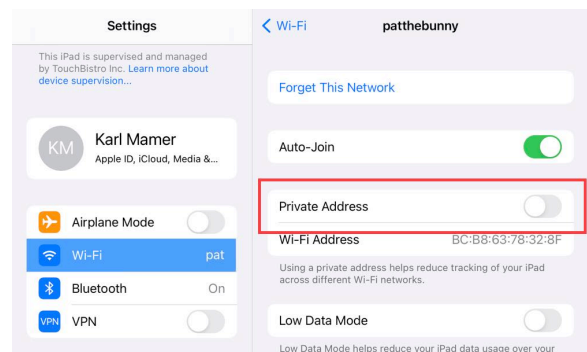

If your iPad(s) are updated to iPadOS 14, there's a **Wi-Fi** setting that needs to be disabled if you are using a payment integration, TouchBistro Customer Facing Display (CFD), or Kitchen Display System (KDS). Follow these steps:

1. Tap your **Settings** icon.

2. Tap **Wi-Fi** and then tap the **Information**  icon next to your connected network.

3. If **Private Network** is enabled, disable it.
4. Rejoin the network when prompted.
