

What's New in TouchBistro 9.3.7?

The updated Staff List selection screen has been added to several new TouchBistro options. Users of the Shogo and Factura Electronica integrations are now fully enabled/disabled in Cloud. Admins/Manager will start to see a new End of Day warning.

Consult these releases notes for further details about these changes and more.

End of Day Warning

We are rolling out a new warning dialog. You may start to see this warning dialog box.

If you've not done an End of Day after 24 hours, the next time an Admin or Manager logs in, TouchBistro will display a warning dialog. Tap **End Day** to launch the End of Day checklist. If you tap **Cancel**, you will receive this warning the next time you log in.

Enable/Disable Shogo Or Factura Electronica Via Cloud

If you are using the Shogo or Factura Electronica third party integrations, if you need to enable/disable the integration, you now do so in your Cloud portal's **App Marketplace**.

You Cannot Have Two Or More Taxes with the Same Name

Under Tax Settings, you can no longer give two or more taxes identical names. For example, you can't call Tax 1 and Tax 2 both "State".
